DIRECTIONS: Rewrite the sentences with corrections.

antarctica is the southernmost continent, located over the south pole. Though it is covered in snow and ice, Antarctica is classified as a desert because it is so dry.

Antarctica is one expanse of ice, and it's size and shape is always changing. It almost doubles in size every winter when the see freezes along its coast.

No one lives in Antarctica all year round. Vegetation is limited to mosses lichen and algae. The only warm-blooded animal living in Antarctica is the mail Emperor penguin.
