

Name _____

Sally's Amazing Day at the Arcade

Sally was thrilled when her parents took her to the arcade for the first time. The moment she stepped inside, she was greeted by a symphony of sounds – the whirring of arcade machines, the clinking of tokens, and the laughter of children.

Sally's eyes widened with wonder as she spotted the colorful array of games lining the walls. She eagerly approached the skee-ball game, her fingers tingling with anticipation. With a flick of her wrist, she sent the ball rolling down the lane, aiming for the highest score.

As the ball soared through the air, Sally held her breath, her heart racing with excitement. With a satisfying clang, the ball landed in the coveted 100-point slot, earning Sally a triumphant cheer from her parents.

After conquering skee-ball, Sally decided to try her luck at the claw machine. She carefully maneuvered the joystick, guiding the claw towards a plush unicorn nestled among a pile of toys. With bated breath, she pressed the button, watching as the claw descended with precision.

To her delight, the claw gripped the unicorn tightly and lifted it into the air, securing Sally's prize. With a beaming smile, she hugged her newfound friend, feeling like the luckiest girl in the arcade.
