

Name _____

Hidden Island

On a hidden island, a young explorer named Knobby found an ancient map. The map led to a knoll where a treasure was buried. Knobby's friend, Knevin, joined the quest with excitement. They knew it would not be an easy journey.

They carefully read the map and found a knotted rope hanging from a tree. Climbing it, they discovered a small entrance covered in gnarly vines. They crawled through the entrance and entered a tunnel.

Inside the tunnel, they found an old, abandoned cabin. The cabin had a sign with faded letters that said "Knock before entering." Knobby knocked, and the door creaked open to reveal a chest filled with gold coins and shiny jewels.

Knobby and Knevin couldn't believe their eyes. They gathered the treasure and noticed a hidden message on the chest with a silent "n." It read, "Only the brave and kind find the true treasure."

They returned to the island's shore, feeling proud and happy. Their adventure had taught them the value of bravery and kindness.
