Open-Ended Response Answer Key

1. Some may say they would still be enemies because of their differences, while others might argue they could have been friends without Bella between them.
2. The conflict shows how groups sometimes dislike each other based on old beliefs rather than actual experiences, similar to real-world discrimination.
3. Answers will vary—some may say Bella made the right choice, while others may argue that keeping the groups apart would have been safer.
4. Students might mention books like Harry Potter (wizards vs. Muggles) or movies like Zootopia (different animal groups learning to work together).
