

Name _____

Sparkling Skies: The Eco-Friendly Firecracker

Open-Ended Response Answer Key

1. Maya's determination to make the world a better place and her passion for innovation motivated her to continue her experiments. She believed in the importance of finding eco-friendly alternatives and was committed to making a positive impact.
2. Maya's invention, the Eco Sparkler, brought joy to people by providing a dazzling and eco-friendly way to celebrate festivals. It raised awareness about eco-friendly choices by showing that celebrating in an environmentally conscious manner is possible and enjoyable.
3. Individuals can contribute to a more eco-friendly celebration of festivals by choosing eco-friendly products and practices, such as using biodegradable decorations, reducing waste, and opting for eco-friendly fireworks like the Eco Sparkler. They can also educate others about the importance of sustainability during celebrations.
