## Alliteration

# Alliteration

Alliteration is the intentional repetition of a letter sound in nearby words. The repeated sound can be either a vowel or a consonant. The repetition often occurs at the beginning of each word, but it does not have to.

Add an adjective to each noun to create an alliteration.

- |          |          |           |         |
