- Known as the "king of the jungle," this powerful predator lives in social groups called prides.
- The largest land mammal, this intelligent, social creature uses its trunk for communication, feeding, and other tasks.
- As the fastest land animal, this sleek and agile hunter can reach speeds up to 70 mph during short sprints.
- The tallest land animal, this species uses its long neck to reach leaves high in trees that most other herbivores can't access.
- Famous for unique black-and-white stripes, this social grazer is often found in herds.
- A solitary and elusive big cat, this skilled hunter is a strong climber with a distinctive spotted coat.
- Known for eerie laughs and scavenging habits, this creature is also a skilled hunter and lives in highly structured clans.
- Massive and powerful, this herd animal is known for its unpredictable nature and formidable horns.
- A type of wild pig, this tough survivor digs burrows for shelter and uses its tusks for defense.
- The largest bird in the world, this flightless species can run at incredible speeds to escape predators.
