## Gifted Friends

### Short Answer Key

1. Alex has the ability to read minds, Lily can move objects with telekinesis, and Mia can become invisible. They strengthen their friendship by using their abilities in training sessions, supporting each other, and relying on their unique talents to overcome challenges together.
2. One incident that tested their friendship was when Mia's invisibility seemed to malfunction, leaving her stuck in an invisible state. The friends calmed Mia and helped her regain visibility by using their abilities and working together.
3. During the summer, the friends embarked on an adventure to uncover the school's hidden secrets. They followed clues, solved puzzles, and relied on each other's talents to unlock mysteries. This adventure strengthened their bond as they faced challenges together.
4. According to the teachers at Talents Academy, the true strength of a talent lies in the ability to work with others. This means that individuals with unique abilities can achieve even more when they collaborate and support each other.
5. The main lesson the friends learned is that friendship is the greatest gift. While their unique abilities brought them together, their unbreakable bond made them true heroes. This lesson impacted their outlook on life by emphasizing the importance of working together and valuing their friendship.
