

Name _____

The Archaeologist's Day of the Dead Discovery

Short Answer Key

1. The ancient tomb contained intricate carvings and symbols related to the Day of the Dead, offerings such as marigold flowers, sugar skulls, and incense, and paintings depicting joyful celebrations and reunions between the living and the dead.
2. The inscriptions on the stone tablet revealed a ritual that could bring back the spirits of the deceased during the Day of the Dead. This discovery led Dr. Torres to recreate the ritual, hoping to witness its supernatural effects.
3. When they performed the ritual, the tomb began to glow with an otherworldly light, and the spirits of the deceased materialized, walking among the living.
4. The encounter with the spirits during the ritual deepened the townspeople's understanding of the Day of the Dead, as they witnessed the connection between the living and the deceased firsthand. It left them in awe and amazement.
5. Dr. Torres's conversation with her own grandmother was significant because it allowed her to connect with a loved one who had passed away years ago. It provided a personal and emotional experience that touched her deeply.
