Healing Through Hardship

Open-Ended Response Questions

1. Some of the characters in Dr. Sarah Johnson's team included Nurse Annie, her resourceful and witty assistant, and Dr. Henry, a compassionate colleague passionate about breaking down racial barriers in healthcare. Nurse Annie assisted Dr. Johnson in her medical duties, while Dr. Henry played a key role in advocating for change within the hospital.
2. Dr. Johnson and her team faced challenges due to the limited resources at the segregated hospital. These challenges included fewer supplies, lower budgets, and less access to advanced medical equipment. They often had to rely on their creativity and determination to provide the best care possible.
3. Dr. Johnson and her colleagues bridged the gaps in care for their patients by working long hours, even when tired and resources were scarce. They found ways to make do with what they had and offered not only medical assistance but also emotional support to their patients.
4. Dr. Johnson and her team raised awareness about inequalities in healthcare by advocating for change within the hospital and by their dedication to providing quality healthcare for all, regardless of race. Dr. Henry's efforts to break down racial barriers also contributed to raising awareness.
5. Dr. Johnson and her team demonstrated qualities such as dedication, compassion, resilience, and determination in the face of adversity. They were committed to their mission of providing quality healthcare and advocating for equality in healthcare, regardless of the challenges they faced.
