## Timeless Tale

### Open-Ended Response Answer Key

1. If Victor had been kind, the creature might not have become angry or dangerous.
2. Some scientists today think about consequences, but others may still take risks without considering what could happen.
3. The creature's loneliness is similar to how some people feel left out or judged for being different.
4. The most important lessons include thinking before we act, taking responsibility, and being kind to others.
