

Name _____

WHAT DO YOU SEE IN THE PICTURE?

Directions: Look at each picture below and make an inference about what you see.

How many kids are there in the picture?

In the first picture, there are seven kids walking together with backpacks on their backs.

What's happening in the picture?

In the second picture, the students are boarding a school bus headed to school.

What are the students doing in the picture?

The students are gathered around a table, working on a project together. They are engaged in discussion and collaborative learning, possibly with a teacher or adult assisting them.

Which place is this?

The picture shows a classroom with empty desks and a blackboard at the front. This place is a school classroom, likely after or before classes, as there are no students present.
