

Name _____

Farm Tales: A Journey of Discovery

Short Answer Key

1. David and Lily learned about caring for cows, collecting eggs, the intelligence of pigs, the value of fresh produce, planting in the vegetable garden, and the importance of sustainable farming practices.
2. In the vegetable garden, they learned about planting, harvesting, and sustainable farming practices. Lily helped plant seeds.
3. Lily felt excited about riding Buttercup the pony, and David realized that new experiences could bring out hidden talents in his child.
4. Sustainable farming practices mentioned by Mr. Jenkins may include crop rotation, composting, and minimizing the use of pesticides. These practices are important for conserving resources and protecting the environment.
5. Their visit to the farm changed their perspective by providing them with a deeper understanding of nature and farming, fostering appreciation for the hard work of farmers, and inspiring a desire to explore and learn more.
