

Name _____

The 100th-Day Oracle

Short Answer Key

1. Alex helped Lily in math class by whispering hints about the answers to math problems, such as telling her that the answer to problem number three was 42.
2. Alex advised Benny to tell a joke about a banana and an orange to make the class laugh during recess. It turned out to be a guaranteed hit, and the entire playground echoed with laughter.
3. Alex suggested that Mrs. Wacky paint a rainbow with dancing unicorns using her toes in art class. The class reacted with awe and admiration for her creation.
4. Alex decided to use his power one last time to predict something meaningful, and he predicted that they would have an unforgettable time on the 101st day and beyond because they would create their own surprises and adventures.
5. By the end of the 100th day, Alex and his classmates learned the lesson that while predicting the future could be fun, living in the moment and making their own destiny was even better. They embraced the future with optimism and excitement, knowing that every day held its own surprises and opportunities.
