

Name _____

Aardvark Daily Habits and Behaviors

Short Answer Key

1. Aardvarks are nocturnal because they are most active at night.
2. Aardvarks eat large amounts of termites and ants, keeping their numbers in check.
3. An aardvark uses its long, sticky tongue to gather termites and ants.
4. Aardvarks live alone to avoid competition for food and space.
5. Aardvarks create burrows that provide shelter for other animals like snakes and rabbits.
