

Name _____

All About Rabbits

Short Answer Key

1. Rabbits are special because of their long ears and strong back legs.
2. Rabbits are prey animals because they are hunted by predators like foxes and snakes.
3. Rabbits use their strong back legs to hop quickly and escape danger.
4. Rabbits chew on tough plants to keep their teeth healthy, as their teeth never stop growing.
5. A pet rabbit needs a safe cage, fresh hay, water, and room to hop around.
