

Name _____

Designing Effective Social Safety Nets: Alleviating Poverty

Short Answer

1. Explain the concept of targeting in welfare programs and why it is crucial for effective poverty alleviation.
2. Provide examples of supportive services that can be offered alongside financial assistance in welfare programs to empower individuals to improve their economic prospects.
3. Describe the role of monitoring and evaluation in welfare programs and how it benefits both recipients and program administrators.
4. Discuss the potential challenges individuals may face in accessing welfare programs and how accessibility can be improved to reach those in need.
5. Reflect on the achievements and contributions of Leonardo da Vinci, highlighting how his diverse talents and innovations have influenced various fields.
