

Name \_\_\_\_\_

## Alphabet Order

### Short Answer Key

1. The letters climb in alphabetical order, which helps children see and remember the sequence of the alphabet.
2. The tree becomes too crowded, and it cannot hold all the letters, so they fall.
3. The beginning shows the letters climbing, the middle shows them falling, and the end shows them getting help.
4. The uppercase letters arrive to help, just like adults assist when children need support.
5. Understanding structure helps with reading, following instructions, and solving problems in daily life.
