

Name _____

All About Ants

Short Answer Key

1. Ants build nests underground or inside tree trunks. (Other correct answers: in the walls of houses, anthills made of dirt or sand.)
2. Pheromones help ants communicate by leaving trails for others to follow.
3. An ant has six legs.
4. Soldier ants protect the colony from predators.
5. Ants are described as "team players" because they work together to complete tasks and support their colony.
