

Name _____

Architects Who Shaped the World

Short Answer – Answer Key

1. Answer: One famous work by Filippo Brunelleschi is the dome of the Florence Cathedral (also known as the Santa Maria del Fiore).
2. Answer: Sir Christopher Wren contributed to the rebuilding of London after the Great Fire by designing and overseeing the construction of numerous iconic structures, including St. Paul's Cathedral and the Royal Naval College in Greenwich.
3. Answer: One innovative aspect of Zaha Hadid's architectural designs is her use of flowing curves and dynamic forms, which challenged traditional architectural norms and introduced a futuristic and unique aesthetic.
4. Answer: The concept behind Maya Lin's design of the Vietnam Veterans Memorial is a black granite wall engraved with the names of those who lost their lives in the Vietnam War. The design aims to create a reflective and somber space for remembrance and honor.
5. Answer: One distinctive feature of Antoni Gaudí's architectural style is his use of organic forms and nature-inspired elements in his designs. For example, he often incorporated motifs resembling plants, animals, and natural shapes into his buildings.
