

Name _____

What Does a Barracuda Eat?

Open-Ended Response Questions

1. Why do you think barracudas ambush their prey instead of chasing them for long distances?
2. How do you think a barracuda's sharp teeth and strong jaws help it survive?
3. If barracudas didn't exist, how might the ocean ecosystem change?
4. Imagine you are a marine scientist. What would you want to study about barracudas and why?
