

Name _____

What Makes a Bass Unique?

Short Answer Key

1. Largemouth bass and striped bass (or any two types mentioned).
2. The color of bass helps them blend into their surroundings to hide from predators and sneak up on prey.
3. Striped bass can live in both freshwater and saltwater.
4. Striped bass can grow up to 50 inches long and weigh over 50 pounds.
5. Bass are good hunters because they have sharp eyesight and strong, streamlined bodies for speed.
