

Name _____

Where Do Bass Call Home?

Short Answer Key

1. Rivers, lakes, or ponds.
2. These areas give them places to hide from predators and hunt for prey.
3. Striped bass can live in both freshwater and saltwater, unlike largemouth bass.
4. In spring, bass move to shallow waters to lay their eggs.
5. Clean rivers and lakes provide food and safe spaces for bass to live and grow.
