

Name _____

Bears' Daily Habits and Behaviors

Open-Ended Response Answer Key

1. Bears prefer to live alone to avoid competition for food and reduce conflict.
2. Their habits of foraging, resting, and exploring help them find food and stay safe.
3. I would eat lots of food to store fat, find a safe den, and rest for the winter.
4. Observing how bears catch fish or care for their cubs would be fascinating because it shows their survival skills.
