

Name _____

The Beauty Algorithm Blunder

Short Answer Questions Answers

1. Professor Pixel is an inventor who creates a "Beauty Algorithm" intended to determine the ultimate standard of beauty in Selfieville.
2. When the "Selfie Standard" is revealed, the town's residents react by attempting to emulate it, resulting in exaggerated features and comical situations.
3. The challenges faced by the residents of Selfieville include trying to sip coffee through exaggerated lips and dealing with unruly mustaches. For example, townsfolk struggle to drink coffee through their exaggerated lips.
4. The Selfieville Beauty Pageant ends with the contestant with the wackiest combination of features winning. This outcome conveys the message that true beauty lies in embracing individuality and humor.
5. In my opinion, the story suggests that social media can contribute to the perpetuation of unrealistic beauty standards, but it uses humor to critique these ideals and emphasize the importance of embracing individuality and humor in self-expression.
