

Name _____

What Does the Insect Bee Look Like?

Short Answer Key

1. Bees can be between 0.1 and 1 inch long. Most weigh less than a paperclip.
2. The three main parts of a bee's body are the head, thorax, and abdomen.
3. Bees have fuzzy hairs to collect pollen and keep warm in cooler weather.
4. A bee's large compound eyes allow it to see flowers clearly.
5. A bee's stinger is used to protect itself or its hive.
