## Beetles: A Closer Look at Their Unique Features

### Short Answer Key

1. Mandibles help beetles chew through plants or other materials.
2. Beetles' wing covers can be metallic green, blue, red, or plain black or brown.
3. Stag beetles have long, antler-like pincers.
4. Some beetles' colors or patterns help them blend into their surroundings to avoid predators.
5. A Goliath beetle can grow up to six inches long.
