## Baseball Unwrapped: A Beginner's Guide

### Short Answer Key

1. (Answers may vary; e.g., shortstop)
2. The objective of the team playing defense in baseball is to prevent the batting team from scoring runs by catching or tagging out the runners and making accurate throws to record outs.
3. A batter scores a run in baseball by successfully advancing through all the bases and returning to home plate without being tagged out by the opposing team.
4. In extra innings, the game continues until one team wins, with each team having a chance to bat and field.
5. (Answers may vary; e.g., the rule of tagging a runner out when the ball is caught by a fielder before it touches the ground)
