

Name _____

Continents of Life: Exploring Unique Ecosystems and Biodiversity

Open-Ended Response Questions

1. Imagine you are on a wildlife expedition to the Amazon Rainforest. Describe one species of wildlife you might encounter and explain how it is adapted to its environment.
2. Discuss the significance of the Great Barrier Reef and the challenges it faces in terms of conservation and protection.
3. Choose one of the continents mentioned in the passage and explain how its unique ecosystems contribute to the overall biodiversity of our planet.
4. Why is it important to preserve the biodiversity found on each continent, and how can individuals and communities contribute to conservation efforts?
