

Name _____

Blast Off to Dreams: My Journey to Becoming an Astronaut

Open-Ended Response Answer Key

1. The narrator finds becoming an astronaut rewarding because it allows them to explore space, conduct experiments, and see the Earth from a perspective few people ever experience. Additionally, they have the opportunity to inspire the next generation of explorers.
2. Possible challenges the narrator faced could include the difficulty of the educational path, the physical and mental demands of astronaut training, and the competitive nature of the selection process.
3. The narrator's experiences as an astronaut may have given them a deeper appreciation for the Earth, a sense of wonder about the universe, and a realization of the importance of space exploration and scientific discovery.
4. Answers may vary. Example: I would advise someone dreaming of becoming an astronaut to work hard in school, pursue a relevant education, stay physically fit, gain practical experience, and never give up on their dream, no matter how challenging it may seem.
