

Name _____

Exploring the World of Building Inspectors

Short Answer Key

1. Building Inspectors need skills like a keen eye for detail, good communication skills, and organization skills.
2. Steps include site visit, documentation review, physical inspection, note-taking, report writing, follow-up, paperwork, and continuing education.
3. Taking notes and photographs helps Building Inspectors document their findings accurately and provide evidence if needed.
4. The inspection report summarizes the findings, recommendations, and code violations discovered during an inspection.
5. Building Inspectors stay updated through training sessions, workshops, and ongoing education programs.
