

Name _____

Busy Bumblebees: Nature's Hardworking Helpers

Short Answer Key

1. Bumblebees collect nectar and pollen from flowers.
2. Pollination helps plants grow fruits, seeds, and flowers.
3. Loss of flowers and pesticides are two dangers bumblebees face.
4. Bumblebees help grow many of the foods humans eat, like fruits and vegetables.
5. People can protect bumblebees by planting bee-friendly gardens.
