Unleashing the Power of AI and ML for Smarter Business Decisions

Open-Ended Response Questions

1. Imagine you run a small online clothing store. How could AI and ML help you make better business decisions? Provide specific examples.
2. Can you think of a situation where businesses could misuse AI and ML in decision-making? What ethical considerations should businesses keep in mind when using these technologies?
3. In your own words, explain why data is described as a "treasure trove" for businesses, and how AI and ML can unlock its potential.
4. How might AI and ML transform the way businesses operate in the future, and what challenges might arise as a result of this transformation?
