

Name _____

The Magical Day at the Butterfly Garden

Open-Ended Response Answer Key

1. The Butterfly Garden contributes to the conservation of butterflies by providing a safe and nurturing environment for these insects. It educates visitors about the importance of butterfly habitats and the role they play in pollination.
2. Answers will vary.
3. We can help protect butterflies and their habitats by planting native flowers in our gardens, reducing pesticide use, and supporting organizations that work towards butterfly conservation.
4. Answers will vary.
