

Name _____

Classic Caesar Salad Delight

Short Answer Key

1. To include anchovy fillets in your Caesar salad dressing, finely chop them and add them to the dressing mixture.
2. You know the lettuce is evenly coated with the dressing when the leaves are glistening, and you can see the dressing on most of the lettuce leaves.
3. Drizzling olive oil over the lettuce before adding the dressing helps the dressing adhere better to the leaves and adds a subtle richness to the salad.
4. Optional additions to make a Caesar salad a complete meal might include grilled chicken, bacon bits, hard-boiled eggs, or avocado slices.
5. It's important to toss the salad gently to avoid bruising the delicate Romaine lettuce leaves and to ensure the dressing is distributed evenly.
