

Name _____

Canada's Geography and Natural Features

Open-Ended Response Answer Key

1. I would visit the Rocky Mountains because I love hiking and seeing beautiful mountains. I would also like to see wildlife like bears and eagles.
2. Tundra animals have special adaptations, like thick fur and extra fat, to survive in the cold. Some, like the Arctic fox, change color to blend in with the snow.
3. Canada's landscapes provide different homes for animals. The forests give shelter to bears and wolves, the tundra is home to caribou, and the lakes provide water for fish and birds.
4. It is important to protect Canada's natural environments because they provide homes for animals, clean the air, and keep nature balanced.
