

Name _____

Where Does a Caterpillar Live?

Open-Ended Response Answer Key

1. Example: As a forest caterpillar, I would spend my day crawling on leaves, munching on fresh greenery, and hiding from birds under branches.
2. Example: Plants are important because they provide caterpillars with food to grow and places to hide from predators.
3. Example: If caterpillars lived in a place without plants, they would have no food to eat and wouldn't survive.
4. Example: My perfect caterpillar habitat would have lots of trees, flowers, and bushes, with plenty of places to hide and lots of sunlight.
