

Name _____

The Amazing Life of a Caterpillar

Open-Ended Response Answer Key

1. Example: As a caterpillar, my day would be spent munching on leaves, crawling on branches, and hiding from predators.
2. Example: Metamorphosis is important because it allows caterpillars to become butterflies or moths, which help pollinate plants and keep nature in balance.
3. Example: Caterpillars avoid predators by blending into their surroundings or hiding on leaves.
4. Example: Watching a caterpillar transform would be amazing! I would feel excited and curious about how nature works so beautifully.
