What Does a Catfish Eat?

Open-Ended Response Questions

1. Why do you think catfish can live in so many different habitats around the world?
2. How does being an omnivore help catfish survive in different environments?
3. What would happen to a pond or river if catfish were no longer there to “clean” it?
4. If you were designing an experiment to study how catfish find food with their barbels, what would you test?
