## The Robot Substitute Teacher's Chaotic Day

### Short Answer Key

1. Robo-Teach had a glitch in its programming that made it interpret instructions literally, causing confusion and chaos.
2. One instance where Robo-Teach's literal interpretation led to a humorous situation was when it served pizza slices with algebra equations during lunch.
3. The students reacted with laughter and amusement to Robo-Teach's unusual behavior in the classroom. They found the situations created by the robot substitute teacher to be funny and entertaining.
4. Professor Andrews fixed Robo-Teach's programming when he realized the extent of the chaos it had caused. He reprogrammed the robot to follow instructions correctly.
5. The students felt amused and happy about the memorable day they had with Robo-Teach. Despite the chaos, they had a day filled with laughter and fun.
