

Name _____

What Does a Cheetah Look Like?

Short Answer Key

1. Tear marks are black lines on a cheetah's face that help reduce glare from the sun.
2. A cheetah's tail helps it balance and steer when running fast.
3. A cheetah has a golden-yellow coat covered in black spots.
4. An adult cheetah weighs between 70 and 90 pounds.
5. Cheetahs are the fastest land animals due to their lightweight body, long legs, and flexible spine.
