

Name _____

Where Does a Cheetah Live?

Short Answer Key

1. Cheetahs prefer open habitats like grasslands because they need space to run fast while hunting.
2. Savannas have low vegetation and open space, making it easier for cheetahs to spot and chase prey.
3. Iran.
4. Deserts do not have enough food or water for cheetahs.
5. Conservation groups help by protecting habitats like grasslands and savannas from human development.
