

Name _____

What Does a Cheetah Eat?

Open-Ended Response Answer Key

1. Speed is important because it helps cheetahs catch fast prey like gazelles.
2. Cheetahs use their speed and stealth to catch prey quickly, which helps them survive.
3. If cheetahs lose their hunting grounds, they may struggle to find enough food and their population could decline.
4. People can help protect cheetahs by preserving their habitats and preventing illegal hunting.
