

Name _____

Cheetah Daily Habits and Behaviors

Short Answer Key

1. Cheetahs hunt during cooler parts of the day to avoid the heat and to see their prey clearly.
2. A coalition is a small group of male cheetahs, often brothers, who help each other hunt and protect territory.
3. Cheetahs communicate using body language and vocal sounds like purrs, chirps, and growls.
4. Cheetahs avoid fights because they are not strong enough to defend themselves against larger predators.
5. Diurnal means being active during the day, which applies to cheetahs as they hunt in daylight.
