## What Does a Chimpanzee Look Like?

### Open-Ended Response Answer Key

1. Opposable thumbs and big toes help chimpanzees grasp objects, climb trees, and use tools.
2. Chimpanzees' long arms, strong jaws, and dark fur help them move, eat, and stay safe.
3. Answers may include fur color, size, opposable thumbs, and long arms.
4. Chimpanzees use tools because they are intelligent and need to gather food efficiently.
