

Name _____

A Day in the Life of a Chimpanzee

Short Answer Key

1. Chimpanzees are diurnal because they are most active during the day
2. They use sticks to catch termites and rocks to crack nuts.
3. Grooming helps build friendships and trust among group members.
4. They build nests high in the trees using leaves and branches for safety and comfort.
5. Chimpanzees communicate using sounds, facial expressions, and body language.
