

Name _____

Navigating the World of Clinical Research Coordination

Open-Ended Response Questions

1. Imagine you are a Clinical Research Coordinator working on a study to test a new vaccine. Discuss the challenges you might face during participant recruitment, and explain how you would address them.
2. Explain the significance of regulatory compliance in clinical research and how it ensures the safety of participants and the integrity of the study.
3. Discuss the ethical dilemmas a Clinical Research Coordinator might encounter and provide an example of how they can navigate these dilemmas while maintaining participants' rights and safety.
4. Describe a situation where clear and effective communication between a Clinical Research Coordinator and a participant positively impacted the progress of a research study.
