

Name _____

Where Do Cockroaches Live?

Short Answer Key

1. Cockroaches can live in forests, grasslands, deserts, or cities.
2. Urban areas provide warmth, food, and places to hide.
3. Tropical cockroaches live in hot, wet environments, while desert cockroaches survive in dry, sandy areas.
4. Cockroaches break down dead plants and animals, recycling nutrients into the soil.
5. Cockroaches can't survive in Antarctica because it's too cold for them to live and find food.
