

Name _____

How Do Llamas Communicate?

Short Answer Key

1. Llamas hum to express feelings such as curiosity, worry, or contentment.
2. A llama may flatten its ears, raise its tail, or spit if threatened.
3. Llamas use scent glands on their legs to mark territory and avoid conflicts.
4. A cria is a baby llama.
5. Body language helps llamas express emotions and avoid conflicts within their herd.
