

Name _____

How Leopards Communicate

Open-Ended Response Answer Key

1. Leopards use multiple types of communication to send different messages, like warning threats or showing contentment.
2. Scent marking helps leopards avoid conflicts by warning other leopards that the territory is already claimed.
3. A mother leopard teaches her cubs by demonstrating body language and using sounds during care.
4. Understanding leopard communication helps protect them by avoiding conflicts and preserving their habitats.
